

Working Project Manager - Environmental/Construction Services (Delaware County, PA)

compensation: **45K - 65K depending on experience**

Professional and quality driven environmental remediation contractor that provides environmental field services throughout the Mid Atlantic region is seeking a seasoned leader to manage complex and technical remediation projects. Candidates must have a minimum five (5) years experience with environmental remediation, project management or construction related jobs.

Duties include:

- oversight of all day-to-day project work activities.
- supervising a crew of environmental workers in clean up projects involving non hazardous wastes.
- working knowledge of project related tasks.
- demolition, confined space environments and site construction activities
- A "hands on" approach is required.

Immediate openings for applicants looking to work hard and be rewarded accordingly. Compensation will be based on experience and we are willing to train the right individual.

Requirements:

- Ø Physical fitness (this can be a physically demanding job)
- Ø Willingness to travel out of state in company vehicles required (all expenses covered)
- Ø Clean driving check a must
- Ø The ability to pass a drug screening
